I am not sure if I email you the following information from Deputy Trent:

Updated with total number of rejected violations.

Here are the following number of citations issued since the beginning of the program.

June 11-30, 2017

Straight Through – 109

Right Turns – 86

Rejected – 982

1177

July, 2017

Straight Through – 187

Right Turns – 87

Rejected – 1580

> 174

1754

August, 2017

Straight Through – 116

Right Turns – 56

Rejected – 1704

> 172

1876

It was requested that we provide the total number of citations for each intersection broken down by straight throughs and right turns. Those statistics do not exist.

I am still waiting for response to see if actual reports were generated by vendor. This is a new vendor for WeHo so please be patience with us as we compile wth information. Thank you.

Best regards,
